

Confirmation of REACH compliance, compliance with German Sustainable Building Council requirements and free from (H-)FKCW/ (H-)FKW

We hereby confirm that for the following products manufactured by us, we fulfil items I, II, and III below.

I. Complies with REACH requirements

The first "Candidate List of the Materials to be Included in Appendix XIV" was published on the homepage of the European Chemicals Agency (ECHA) on 28 October 2008. It has been expanded several times since. The currently valid version seen in July 2023 includes a total of 235 "substances of very high concern"(SVHC).

We hereby confirm that based on our current knowledge, none of the "substances of very high concern" listed on the Candidate List of the European Chemicals Agency ECHA is contained in our products or packaging.

The ECHA's Candidate List can be found at: <https://echa.europa.eu/candidate-list-table>

In compliance with our obligations under Article 33 of the REACH Regulations, we will immediately inform our customers if, based on any new knowledge, "substances of very high concern" are contained in our products, to the extent that they are above the threshold of 0.1%.

II. German Sustainable Building Council Compliance

We hereby confirm that products manufactured by us and their packaging meet the requirements and guidelines for construction materials in the German Sustainable Building Council (DBnB) certification. In particular, the requirements for the respective substances are listed below.

Item	Substance	Requirements related to the substances	Corresponds to the requirements of the current guidelines of the German Sustainable Building Council certification
1	- halogenated foaming agents - partially halogenated foaming agents - HBCD	- no halogenated - not partially halogenated foaming agents - free of HBCD	Z.40+41 insulation materials
2	- CPs - PBB - PBDE - TCEP	- no CPs - no PBB - PBDE <0,1% - TCEP <0,1%	Z.43 Flame-retardant construction materials (products)
3	SVHC	SVHC <0,1%	Z.44 Plastic Materials
4	Boron	Bor <0,1%	Z.45 Biocidal and flame-retardant products
5	- Lead - Tin	- Lead <0,1% - Tin <0,1%	Z.35 Plastics (coverings and windows) Z.35 Soundproofing inserts

III. Free from halogenated foaming agents / partially halogenated foaming agents

We hereby confirm that the products we manufacture and their packaging are not used for the production of halogenated or partially halogenated hydrocarbons or hydrofluorocarbons as (H)CFCs and (H)HFCs.
